

# Preview of the Future

- Continuing global turmoil
- Strategic threats endure ... but change in character
- Regional weapons of mass destruction threats increase

- 'Hybrid' militaries a major concern
- No single 'nature of future war'
- Technology & warfare?

# Asymmetric Approaches to JV 2020

- **Counter will** ... exploit public opinion ... threaten homelands ... WMD in theater ... human shields ... high tolerance for pain ... deploy in complex terrain ... avoid decisive engagement
- **Counter access** ... foment instability in key states ... disrupt mobilization & deployment ... attack prepo stocks, bases, facilities ... high-and-low tech anti-ship, anti-air capabilities
- **Counter precision strike** ... multispectral obscurants ... radio frequency weapons ... ground based lasers ... passive coherent location systems ... high energy materials ... smart sensors ... D&D

- **Counter protection** ... terrorism ... WMD ... HEDM warheads ... designer bio agents
- **Counter information** ... anti-space capabilities ... D&D ... CNA ... advanced air defense
